Ride: 36' and 50' CARROUSELS Subject: PINCH POINT
(Equipped with Ceilings)

Chance Rides, Inc. has become aware that a possible pinch point exists between the horse pole and the edge of the ceiling panel on the CARROUSEL amusement rides listed above. This may occur if a passenger on a CARROUSEL animal reaches over his or her head and/or stands up in the horse steps while the ride is in motion. When this occurs, it may result in injury to the passenger.

Operators of all rides are required to give safety announcements to all passengers before the start of each ride cycle. Safety announcements given by ride operators of CARROUSELS with ceiling panels must include but not be limited to the following:

1. Once seated, remain seated while the ride is in motion.
2. Hold onto the horse pole.
3. Do not extend hands above your head height on horse pole.

The operator must remain in full control of the operating controls at all times during the operation of the ride. The ride and its passengers must be given the full attention of the operator at all times. The operator must immediately stop the ride if anyone is observed in an unsafe position or doing anything that could lead to an unsafe condition.
