Re: Far Fabbri Evolution Amusement Ride

Far Fabbri Srl is the manufacturer of the Evolution portable amusement ride. At this time, we are researching the possible causes of the event in Jacksonville, Florida.

Though our findings are inconclusive, we are requiring an inspection of the four blocking assemblies of the main support legs. All pins, and fasteners, must be in good condition with no signs of rust or wear. The threaded bushing in the larger block must show full threads capable of providing proper torque.

The bushing must be secure in position, and the wood of the blocking must be in good condition.

Please feel free to contact our US office, Fabbri Amusement, Inc. if you have any questions at 817 275 9393.

Bergantino, 19/03/03
