

TEN YEAR OVERHAUL

When your ride becomes **ten (10) years old**, a complete safety reconditioning is recommended. If your ride, whether you purchased it new or used, has been properly maintained and safety bulletins have been implemented as they were issued, this reconditioning program will be easier.

This work may be performed by the following:

1. By High-Lite Corporation, in its factory.
2. In a factory which has the full capabilities of handling this type work.
3. By the owner, provide the work is inspected by a High-Lite inspector or other outside inspector, fully competent to check that all the work has been properly and completely performed.
