SERVICE BULLETIN

Date: April 7, 1992

S.B. Number: 92-7

Notice:

Majestic Manufacturing customers are being notified, by this service bulletin, of the proper floor care to be utilized on their floor pick-up model rides.

Majestic Manufacturing recommends cleaning the floor monthly with a floor scrubber using a scrubbing pad for best results. This will loosen any dirt and grime left behind from the pick-up ball arcing and from wheel wear created during operation. After using the scrubbing pad, vacuum thoroughly and finish cleaning the floor with a damp mop.

The above cleaning procedure will pro-long the life of your ride, lower maintenance, and provide an attractive ride appearance.

Recommended equipment: Rent or purchase, from a local supplier, a 17" or a 20" floor-buffing machine, maximum RPM 175 with a course grit-scrubbing pad.

If you have any questions on factory standards or procedures on our equipment, contact Majestic Manufacturing, Inc. during normal business hours of 8:00 a.m. to 4:30 p.m. Monday through Friday, E.S.T. at 330/457-2447 or toll free at 1-888-MAJ-RIDE.
