

IMPORTANT SAFETY INFORMATION

Dear Valued Customer

Please read carefully and take note of the following:

The best method to attach a belay rope to a climbing harness is to tie the rope directly to the harness using a rethreaded figure 8 knot. However, Petzl understands that from a practical perspective, there are times when locking carabiners may be used as a more expedient means of attachment, especially in commercial climbing operations.

When locking carabiners are used to attach a belay rope to a climber's seat harness, it is very important to remember that:

- Two (2) locking carabiners **must** be used as shown in Fig. 1 with gates opposed and locked; never use a single carabiner to attach a belay rope to a harness.
- The 2-carabiner attachment method may be used **only for top rope climbing**, with no slack in the rope. For lead climbing, the rope must be tied directly to the harness with a rethreaded figure 8 knot as shown on the harness label, and in the technical notice which comes with each harness.

This information is found in Petzl harness and carabiner technical notices (see enclosed BALL LOCK technical notice for an example). Petzl technical notices are also available in pdf format on Petzl's website at www.petzl.com. Please see the enclosed "Experience" brochure for general information about Petzl carabiners and tying into the harness.

It is your responsibility to ensure that the technical information that comes with every Petzl product reaches the user of the product(s). In addition, we ask that you forward the information in this letter to all of your customers who may use locking carabiners to tie into a harness as described above, especially commercial climbing operations such as gyms, mobile walls, and amusement parks.

Thank you for your attention to this matter and please do not hesitate to contact Petzl Customer Sales & Support (877-807-3805) with any questions.

Best regards

Hank Moon

Petzl America Recalls Climbing Equipment Due to Fall Hazard

WASHINGTON, D.C. - The U.S. Consumer Product Safety Commission, in cooperation with the firm named below, today announced a voluntary recall of the following consumer product. Consumers should stop using recalled products immediately unless otherwise instructed.

Name of Product: Carabiners used for climbing

Units: About 8,000

Importer/Distributor: Petzl America, of Clearfield, Utah

Hazard: These carabiners have a green button that acts as a safety mechanism to prevent unlocking. The recalled carabiners can unlock unexpectedly without pressing the green button, posing a fall hazard.

Incidents/Injuries: None reported.

Description: The recall involves the M34 BL Am'D Ball-Lock and M36 BL William Ball Lock carabiners with metal locking sleeves. Carabiners with batch number between 06076 and 06178 are included in the recall. The batch number is engraved on the spine of the carabiner. The recall does not include Ball Lock carabiners having a plastic locking sleeve.

Sold at: Petzl dealers nationwide from March 2006 through July 2006 for about \$13 for the Am'D model and about \$17 for the William model.

Manufactured in: United States

Remedy: Consumers should stop using the recalled carabiners immediately, and contact Petzl America to have their carabiners inspected and to receive a free replacement, if necessary.

Consumer Contact: For more information, consumers can contact Petzl America at (877) 807-3805 between 9 a.m. and 5 p.m. MT Monday through Friday, or log on to the firm's Web site at www.petzl.com

Send the link for this page to a friend! The U.S. Consumer Product Safety Commission is charged with protecting the public from unreasonable risks of serious injury or death from more than 15,000 types of consumer products under the agency's jurisdiction. Deaths, injuries and property damage from consumer product incidents cost the nation more than \$700 billion annually. The CPSC is committed to protecting consumers and families from products that pose a fire, electrical, chemical, or mechanical hazard or can injure children. The CPSC's work to ensure the safety of consumer products - such as toys, cribs, power tools, cigarette lighters, and household chemicals - contributed significantly to the 30 percent decline in the rate of deaths and injuries associated with consumer products over the past 30 years.

To report a dangerous product or a product-related injury, call CPSC's hotline at (800) 638-2772 or CPSC's teletypewriter at (800) 638-8270, or visit CPSC's web site at www.cpsc.gov/talk.html.
