# Service Bulletin

<b>Ride Manufacturer:</b> Ice Bumper Cars International	<b>Affected Production Dates:</b> All
<b>Ride Name:</b> Ice Bumper Cars	<b>Affected Serial Numbers:</b> All
<b>Model Number:</b> Gen 1, Gen 2	

**Abstract of Issue:** New inspections have brought to light additional concerns regarding the safety of the Ice Bumper Cars. Previous testing concluded that the G-force experienced during the ride was sufficiently low to waive the seat belt requirement. It has been brought to our attention that there are additional safety concerns that seat belts will help mitigate. Seat belts will ensure that all riders stay seated properly in the car during operation.

**Reason for Release:** The state of Colorado performed an inspection on this ride at a location in Denver. A third party inspector and the state authority deemed it mandatory for the ride to have seat belts.

**Action To Be Taken:** Seat belts shall be installed on all bumper cars going forward. Parts and mounting instructions can be obtained from Ice Bumper Cars International.

**Details of Issue:** Exiting the ride prematurely presents a serious safety concern. Seat belts will be used to ensure riders stay seated in the cars at all times during ride operation.
