# NOTIFICATION

<b>Ride Manufacturer:</b> Chance	<b>Affected Parks:</b> San Francisco, Belgium, New England, San Antonio, New Orleans
<b>Ride Name:</b> Wipeout	
<b>Model Number:</b> All	<b>Affected Serial Nos.:</b> All

**Abstract of Issue:**

The rides have been closed in order to re-evaluate the mechanical and operational characteristics of the ride.

**Reason for Release:**

To notify parks of modifications that must be completed before re-opening the ride.

**Action to Be Taken (Inspection, Modification, Replacement, NDT, Order Parts, Manual Revision, Procedural Change, etc.):**

1. Change signage, height check gages, standard operating procedures, etc. to establish a minimum height requirement of 48 inches for all riders and no single riders.
2. Refurbish the non-skid material on the surface of the seat bottoms if the material is worn to the point that it is no longer skid resistant

**Detail of Issue:**

It is important that riders maintain a proper seating position in order to resist the dynamic forces of the ride. The smaller person should always sit to the inside and two persons per seat.
